Draft Site-Wide Environmental
Impact Statement for the
Oak Ridge Y-12 Plant
U.S. Department of Energy

Written Comment Form

My name is Doug Allison, I am a 19 year old resident of Knoxville. I am vehemently opposed to the manufacture of war-causing weapons. I am partially uneducated about all of the Y-12's activities, and very opposed to the spending of 4 billion dollars into an industry that will create nuclear weapons. As a side note, when I was growing up, my cousin, who is 11 years older than I, once told me that when he was growing up during the late '70's/early '80's, he was always afraid that Russia/any other country would drop a bomb on the United States, and that he went to bed every night with that fear. I'm tired of living in fear of Nuclear war. I don't want my children to live in fear.

Comment No. 1

Issue Code: 16

Comment noted. In accordance with Section 91 of the *Atomic Energy Act*, DOE carries out its mission (i.e., atomic weapons activities) consistent with the consent of and direction from the President and Congress. This consent and direction are contained in the Nuclear Weapons Stockpile Memorandum, which is updated annually. The issue of whether DOE should produce nuclear weapons or alternative uses of the Nation's funds are beyond the scope of the Y-12 SWEIS.
